Compare and contrast comprehension worksheets 4th grade

Comparing story elements in Two Fiction Texts
Comparing Story Elements in Two Fiction Texts
Learners practice comparing different elements of the story, including characters, settings and key events, in this reading understanding understanding sheet. 4th grade Reading & Writing
Jimmy and Evelyn both wrote about their recent birthday celebrations. Read both paragraphs. Then compare and contrast them by writing down the things they did on the lines below under their names. If they did something that was the same, write it in the middle. Think about two buildings you know. It can be two different houses, two different schools or any combination of buildings. Authors use transition words to make writing easier to follow, and one kind of transition suggests that a writer compares or contrasts things. This organizational pattern highlights similarities or differences between two or more items. Read each sentence. Is it compared or contrasting? Underline the clues. Write your answer to the line. Compare and contrast the two subjects you are currently studying at school. Select one of the challenges to write below. Write a comparison and contrast paragraph to answer the prompt. Write what you can as fast as you can in five minutes. If you need more space, use the back of the page. In the ALTERNATING method, you compare and contrast two point objects for a point. In the DIVIDING method, you make all your points about the first subject; then you make all your points about the second topic. This is a nice mix of paragraphs and sentences work. You can also use the Venn diagram to map what is the same and what differs about the two topics in a piece of writing. For this exercise, you will use the Venn diagram to organize your thoughts on two subjects. Then you write a paragraph that compares and/or contrasts subjects. Read the passage. Then answer the questions. Which sentence best describes the overall intent of this article? Peter and Marcus wrote short descriptions of their pets. Read each description. Then fill in the Venn diagram below to compare the two dogs. Does it use an alternating or dividing pattern? Write your answer to the line. Think of your parents. Are they much alike? Or do the case of opposites attract? Use an alternating pattern to type a paragraph that compares and contrasts them. Compare the robots we put in front of you. Identify at least three differences in the way Dickens describes old men. Then write two versions of the paragraph in which you will contrast the passages. In the first version, use an alternating pattern of contrast. In the second version, use the contrast separating method. Based on two paragraphs, how do domestic cats and tigers are the same? Based on two paragraphs, how are Mrs. Weathers and Mrs. Henry the same and different? Based on two paragraphs, how are paper postcards and electronic cards the same and different? List three that birds eat, that dragonflies don't. Who would enjoy a day lying on the banks of a stream and enjoying the sun? Why is the navel orange the most popular to eat? Students read a book and a film of the same name. Then compare and contrast the two. This project includes short answers to questions, questions about composition, and a Venn diagram. 5th to 7th Grades Creature Feature #1 (Intermediate) Compare and contrast the two beings displayed. Use the Venn diagram, and then write a written comparison. This version has a medium-2:00 for students in degrees 3 through 5. Kindergarten Creature Feature #2 (Intermediate) Color Creation, then compare them to the graphic organizer. Then use the organizer information to write a written comparison. This version was created for students in degrees 3 through 5. Kindergarten Creature Feature #3 (Intermediate) Color unusual creatures in the picture. Then compare them and compare them on the graphic organizer and in the form of an essay. Recommended for students in degrees 3 to 5.
